

Back Up-/ Mains Changeover Switch (MLU1) 3/4-pole 35/63 A

60947-6-1

PRODUCT DESCRIPTION

The MLU1 back-up/mains changeover switch from MERZ Schaltgeräte GMBH are unique! ▶ 60947-6-1

- We have the smallest mains changeover switch on the market! ▶ Width only 4 modules
- Complies with the applicable standard ▶ DIN EN IEC 60947-6-1 (Multifunctional switching devices - Mains changeover switches)
- With late-break and early-make neutral conductor
Protects against unwanted voltage increases
- Two variants with 35A or 63A
- Installation variants available for energy distributors or in enclosure
- Outputs bridged „internally“

Unfortunately, there are many switches on the market for these non-standard switches are available for these applications. Our switch is one of the few standard-compliant switches and fulfills the international standards without ifs and buts!

This means that your system will always function safely and reliably!

We deliver innovations to our customers in series and every possibility for customized individuality!
